

Electrical and Electronic Technology (general higher education on the National Eleventh Five-Year planning materials)

By WANG HONG MING // DUAN YU SHENG // WANG YAN DAN

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 386 Publisher: Higher Education Pub. Date :2009-05-01 version 2. This book is a general higher education. Eleventh Five-Year national planning materials. This book is for non-electrical engineering majors prepared for teaching electrical technology. electronics technology course materials. Writing by common materials asked to consider. so rich in content and widely applicable. This material is characterized by strengthening the base and enhance the application. focusing on linking theory with practice. and strive to apply their knowledge. Book on the book of electrical technology BU points. the main contents of the law of the circuit components and circuits. circuit analysis. sinusoidal AC circuits. periodic non-sinusoidal current circuit. the resonant circuit and the circuit's frequency response. and safety of three-phase AC circuit electricity. the circuit rhyme transient. magnetic. exchange coil and core transformers. motors. relay control. programmable control detector. Electrical measurements. TINA circuit simulation software and applications. Book is part of the next volume of electronic technology. the main contents of diodes. transistors. the basic amplifier. differential amplifier. power amplifier and integrated amplifier. the negative feedback amplifier circuit. integrated operational...

Reviews

A brand new electronic book with a new standpoint. It is writter in basic phrases rather than confusing. Its been designed in an extremely basic way which is merely right after i finished reading through this publication where basically altered me, change the way i believe.

-- **Kitty Crooks**

It becomes an awesome publication that I actually have actually read. It really is writter in simple terms and not difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
