## LONER: COLLECTORS EDITION

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Mankind has been living a lie; caught up in our own self importance we have blindly followed our elected leaders towards our inevitable doom. We believe that we are alone, that the universe is merely the next step in our evolutionary development, expansion beyond the boundaries of the Earth simply a matter of time. Our destructive tendencies make space travel more a necessity than a desire as we eat up all the natural resource at our disposal. We are however misguided in our confidence, fooling ourselves into seeing only that which we choose to see. There are indeed others within our solar system, beings far more technologically advanced than we. Other races that make humanity look like its still living in the Stone Age. Races, who are watching us with great interest, concerned that the disease of mankind may reach out and infect others. That s where Mike Novak comes in. He looks like any other human and lives among us with impunity, hidden in plain sight. Yet despite the facade of normality that he has worked so hard to create his real agenda is to observe the human race and report back to the Galactic Council on just what it is that makes us tick. He kept himself to himself, the life of a solitary figure, life of a loner serving to allow him to go about his business without attracting any undue attention. That was until Julie came into his life and changed everything. Mike knew the risks; the Sentinels to whom he reported had always been very clear on the risks of becoming involved with any of the indigenous species. Despite the warnings however Mike...
