

A Quantum Leap of Faith

By Michael Simon Bodner Ph D

Tate Publishing Enterprises, United States, 2016. Paperback. Book Condition: New. 178 x 127 mm. Language: English . Brand New Book. America today is faced with a great number of concerns. One of the larger ones is the role of religious thought and practices in our everyday lives. Issues such as abortion, intelligent design, and the moral and ethical impact of technology on its citizens weigh heavily on almost all of us. Religion and faith are in conflict within the hearts and minds of educated people exposed to more and more information. Science has marched directly into realms covered by faith, leading to great angst within people who try and balance their Church mind with the secular world. Nowhere is this conflict more apparent than in the issues generated in the reconciliation of theology and modern science. Scientists themselves discovered that they had come face-to-face with the questions around the existence of God, the Creator, and his role in Creation. While most of the general population believes that scientists are atheists, and that the basic tenets of theology and science are antithetical, the opposite is actually closer to the truth. There is a ground where science and theology can, and must,...
